Thank you to Fergus Falls Public Works! This is a GREAT reminder to ALL of us! DO NOT FLUSH 🚽 ANYTHING other than toilet paper 🧻!

Due to the coronavirus concerns, there has been a shortage of toilet paper on store shelves. This shortage may cause users to look for alternative products. Please be mindful that paper towels, facial tissues, baby wipes, flushable wipes, and other similar items do not break down like toilet paper and can cause sanitary sewer overflows, which in turn can cause additional public health hazards. Paper products other than toilet paper can clog your sewer system and potentially clog the city sewer system, including pipes and pumps.

We are asking that you do not flush anything other than toilet paper in your commode.
